

Purelit OL9570/50 LED Surgical Light

- Adopt the most advanced international LED as light source of shadowless lamp
- Environmental protection, low power consumption and long life LED lamp with long service life of more than 20,000 hours
- LED bulbs have no infrared and ultraviolet radiation
- Flat light panel pressure injection molding, completely eradicating the influence on patients caused by the rupture of lamp surface.
- Background illumination lamp is included, flexibly supplying the auxiliary light source for laparoscopic operation.
- The streamlined ultra-thin design with less air resistance to facilitate the arrival of purified air to operation wound.
- Overhead built-in power supply system, avoiding the complicated installation of wall-mounted control box.
- Digital control by Micro-computer, with 10-grade brightness options and automatic memory.
- Light suspension system of balance body, six groups of joint interaction, easy mobility, stable positioning, 360 ° all-round design, fully meeting the height and angle requirements for operation.

OL9570/50 LED Surgical Light Composite Diagram

Technical Data

Technical Specifications	Model	OL9570/50
Illumination(Lx)		≥120000/80000
Color temp(K)		4300
Color rendering index (Ra)(%)		≥90
Diameter of light spot(mm)		250/200
Input power(VA)		460
LED power(W)		160/80
Lighting depth(mm)		≥800/800
LED service life		> 20,000 h
Illumination of background light (Lx)		30
